

Enhancing Competencies with Prevention Professionals: Implementing the Guide to the Eight Professional Competencies for Higher Education

David S. Anderson, Ph.D.
Professor Emeritus
of Education and Human Development
George Mason University
danderso@gmu.edu

Joan Masters, M.Ed., MAPS
Project Director, Missouri Partners in Prevention
University of Missouri
Mastersj@missouri.edu

Objectives

To understand the historical and current context of campus prevention professional preparation, including multiple roles and opportunities for enhancement.

To learn about the eight core competency areas essential for professional development among those committed to implementing a comprehensive prevention strategy.

To identify specific opportunities for prevention professionals, campus leaders, state and national leaders, higher education academic programs, and other advocates to organize and support enhanced skills.

THE GUIDE TO THE EIGHT PROFESSIONAL COMPETENCIES FOR HIGHER EDUCATION SUBSTANCE MISUSE PREVENTION

Designed to promote enhanced professional skills and ultimately significantly impact college students' decisions surrounding drugs and alcohol.

Developed with funding from the
Mid-America Prevention Technology Transfer Center

Designed to promote enhanced professional skills and ultimately significantly impact college students' decisions surrounding drugs and alcohol.

Mid-America (HHS Region 7)

Overview of Today's Session

Overview and Participant Assessment

Rationale for Professional Competencies Resource

Background and Development

Organization and Content

Audiences and Utilization

Applications

Wrap-up

Presentation Outcomes/ Things to Consider

As you consider the breadth and depth of this resource, what are overall reactions about this Professional Competencies Guide?

How might the seven key audiences, as well as others, use this resource?

In what ways might you use this resource?

How can you engage others on your campus to use this resource?

What challenges do you foresee with using this resource, and how might those be overcome?

Why Professional Competencies?

Substance misuse issues on campus continue

Campus environments and quality of life negatively affected

Academic success is hampered by substance misuse

Campus prevention specialists are dedicated, yet have multiple responsibilities

Greater understanding of broadened and deepened skills is needed

Professional preparation for prevention specialists is limited

Attention to maximizing impacts with greater efficiencies is warranted

Background and Development

The competencies project was initiated by the Mid-America Prevention Technology Transfer Center (PTTC)- Mid America

- The aim was to have in one place the wide range of skills (competencies) needed to address drug/alcohol issues on campus
- Nine month Phase One Project resulted in development of 12 core areas with a total of 864 competencies
- Grounded competencies with numerous national resources
- Organized competencies by Foundational, Intermediate and Advanced

The training project was initiated by the Mid-American Prevention Technology Transfer Center (PTTC)- Great Lakes

Primary Resources Consulted, Phase 1

Council for the Advancement of Standards in Higher Education – Tenth Edition (2019)

CAS Standards – Alcohol and Other Drug Programs (2019)

Professional Competency Areas for Student Affairs Educators – ACPA and NASPA (2015)

Prevention Core Competencies – SAMHSA (2021)

Addressing College Drinking and Drug Use – American Council of Trustees and Alumni (2019)

Prevention With Purpose: A Strategic Planning Guide for Prevention Drug Misuse Among College Students (2020)

Substance Misuse Prevention for Young Adults – SAMHSA (2019)

Communicating the Value of Competencies – American Council on Education (2016)

Making Data Talk: A Workbook – National Cancer Institute (2011)

National Commission for Health Education Credentialing – Health Education Specialist Practice Analysis 11 (2020)

International Certification and Reciprocity Consortium Certified Prevention Specialist

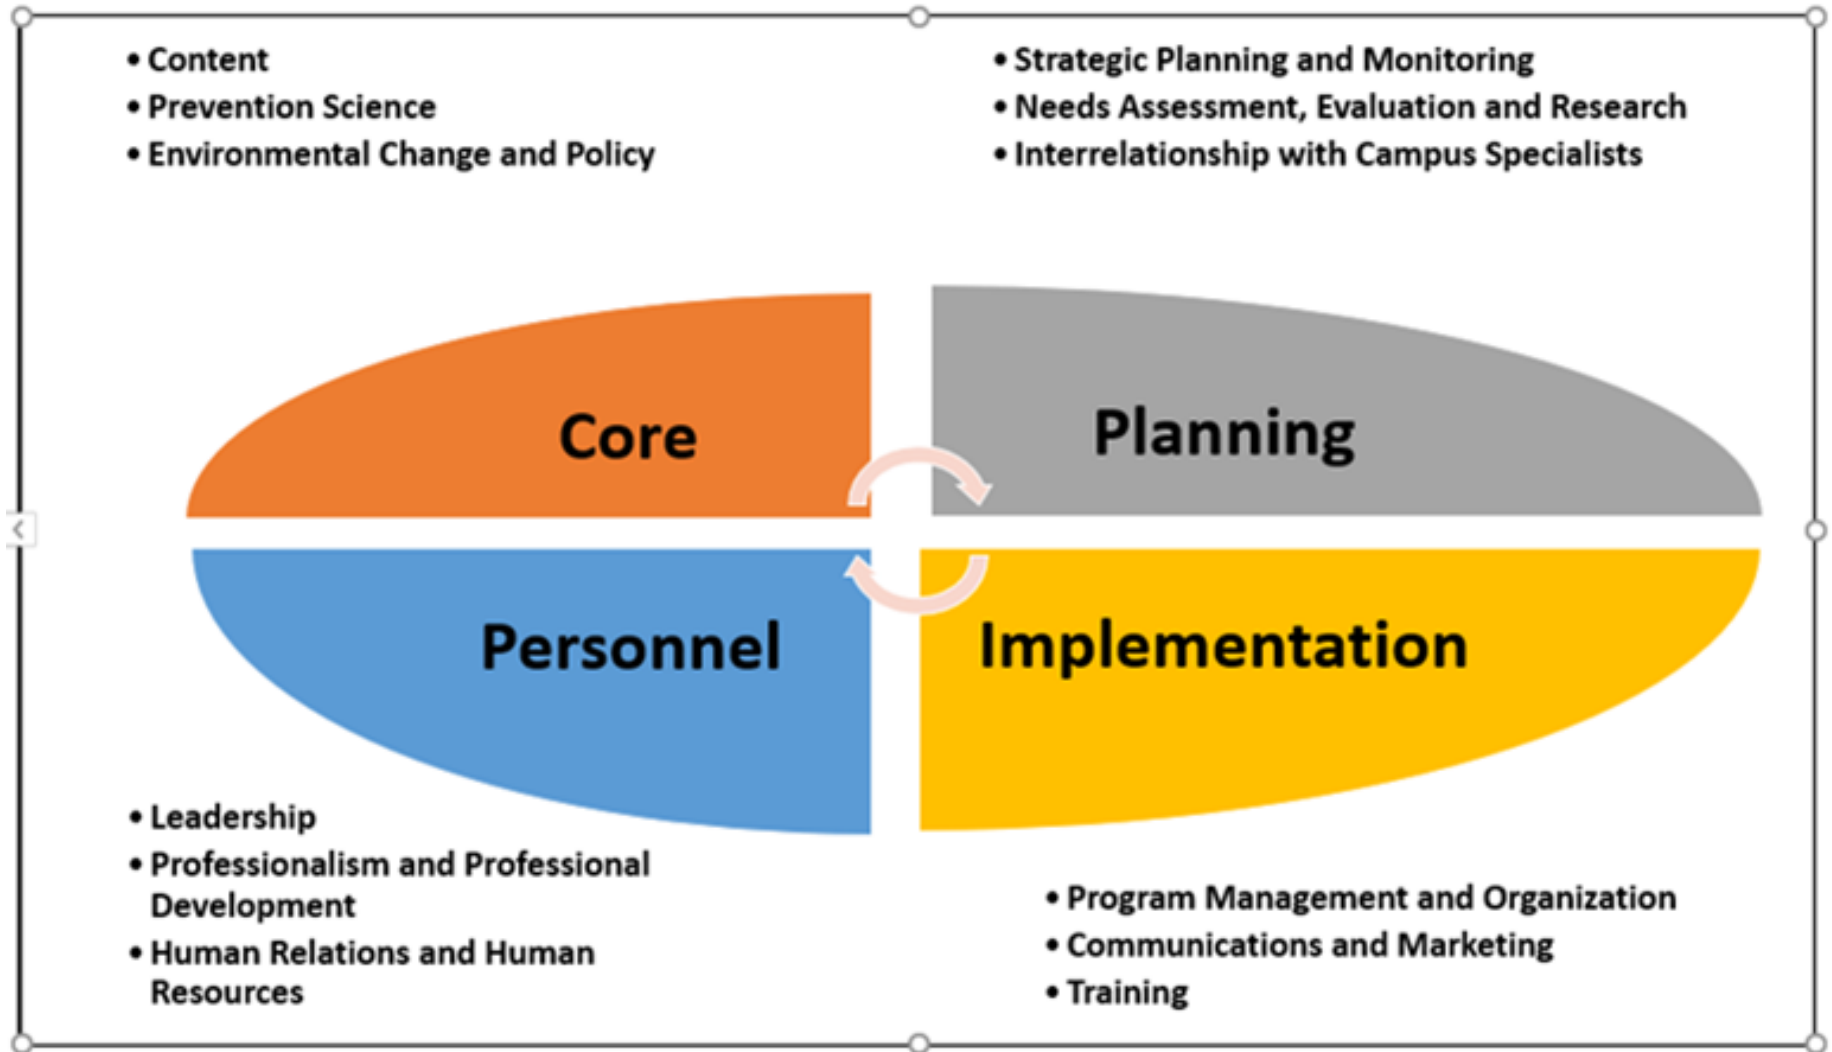

Focus on Prevention: Strategies and Programs to Prevent Substance Use – SAMHSA (2017)

Facing Addiction in America: The Surgeon General's Report on Alcohol, Drugs and Health (2016)

Leading Campus Drug and Alcohol Abuse Prevention – NASPA (2021)

| 1. | Campus Collaboration <i>C PPD PMO</i> | <p>1.1 Coordinate prevention professionals' efforts with those of other campus professionals in ways that promote a coherent, consistent approach with prevention efforts (Intermediate)</p> <p>1.2 Appreciate the important role of the range of specialty offices and personnel as integral to successful comprehensive campus strategies (Foundational)</p> <p>1.3 Understand how distinct specialty areas (e.g., counseling, medical services, police) have their own expertise, professional standards, and codes of ethics (Advanced)</p> <p>1.4 Clarify roles and boundaries with varied specialty offices and departments, all within the context of an overall systems approach for prevention (Intermediate)</p> <p>1.5 Identify strategies and approaches currently being used by campus professionals and departments as they address drug/alcohol issues (Foundational)</p> <p>1.6 Identify opportunities for professional units and personnel to engage with campus prevention issues in a positive manner, and minimize detracting or disempowering efforts (Advanced)</p> <p>1.7 Promote diversification of campus efforts through decentralized strategies that engage multiple departments and personnel (Intermediate)</p> <p>1.8 Engage stakeholders from traditional settings (e.g., counseling, health, residence halls, conduct/judicial, athletics and student activities) and less obvious settings (e.g., faculty, admissions, advancement, public relations) with campus prevention efforts (Intermediate)</p> <p>1.9 Consult with campus leaders and department personnel to identify concerns and issues, areas of support needed, and opportunities related to prevention efforts (Advanced)</p> <p>1.10 Offer support and expertise to campus offices and departments to help them address concerns and promote the desired campus culture (Foundational)</p> <p>1.11 Maintain a forward-thinking, action-focused role with various campus entities and leadership (Intermediate)</p> <p>1.12 Foster a sense of shared responsibility and ownership for prevention efforts within the context of promoting quality student academic, social and cultural performance and success (Intermediate)</p> <p>1.13 Facilitate collaborative problem-solving and solution-finding approaches (vs. silo-based approaches) (Foundational)</p> |
|----|--|--|

Next Steps: Phase 2

With the professional competencies initiative, a follow-on Phase Two Project was initiated

- A national advisory group
- Refinement of core areas
- Development of a framework (Knowledge, Skills, Applications)
- Specification of competencies (266)
- Identification of resources
- Preparation of a roll-out plan

Release of final product and resources on October 6, 2022 at CoHEASAP meeting

PLANNING BODY

**Susie Bruce, M.Ed. Director, Gordie Center, Department of Student Health & Wellness,
University of Virginia**

Tom Hall, Ph.D. Director, Orange County Drug-Free Office, Orange County, FL

**Jim Lange, Ph.D. Coordinator of AOD Initiatives, San Diego State University and
Director, Higher Education Center for Alcohol and Drug Misuse Prevention and
Recovery, The Ohio State University**

**Joan Masters, M.Ed. Senior Coordinator, Missouri Partners in Prevention, University of
Missouri**

Karen Moses , Ed.D. Director, Wellness and Health Promotion, Arizona State University

Ex Officio Member: Steve Miller, CRPS Director, Mid-America PTTC

Goals of the Planning Body

Started with Phase One resources and product

Clarified the foundation:

- what was specific for *substance misuse prevention*
- what was appropriate for the *higher education setting*

Revamped the framework:

- Focused on *Health-Enhancing Environment*
- Refined the competency areas
- Organized the competencies into Knowledge, Skill and Applications

Emphasized the theme of *aspirational* competencies

- Addressed the professionals overall
- Eliminated earlier themes of Foundational, Intermediate and Advanced
- Acknowledged that these skills are appropriate for all contributing to the campus prevention effort continue

Identified resources – for each competency area and overall

Developed an implementation plan

| Program Management | Needs Assessment, Evaluation, and Research |

PREVENTION

Resources

Prevention Science emphasizes understanding drug and design of strategies and understanding of risk factors also emphasizes understanding of developing or enhancing evidence-informed foundation framework, and documented

1. Systematic Study of Substance Use

Maintain a systematic study of substance use

To perform this application, the Prevention Specialist needs to have the following Knowledge

Know public health and substance misuse prevention concepts, theories, models and techniques.

Understand the components of a comprehensive prevention approach

Awareness of universal, selective and indicated approaches.

Apply local data and insights

To perform this application, the Prevention Specialist needs to have the following Knowledge

Know ways of gathering current and information about students' knowledge, attitudes, behaviors, intentions, perceptions and desires.

3. Engage Students and Faculty

Application

Engage students and student groups with substance misuse prevention implementation

To perform this application, the Prevention Specialist needs to have the following Knowledge

Know students' reasons for and expectations regarding drug/alcohol use and misuse.

Identify and well

4. Address Risk and Protective Factors

Application

Address risk and protective factors at the individual, group, and environmental levels

To perform this application, the Prevention Specialist needs to have the following Knowledge

Understand the range of individual, group, and environmental risk factors for substance misuse.

Maintain exact con

Awareness of the compounding nature of numerous risk factors.

Incorporate indiv

Understand the range of individual, group and environmental protective factors regarding substance misuse.

Recognize root causes for drug/alcohol misuse.

5. Develop Population-Specific Messages and Approaches

Application

Prepare targeted messages and approaches

To perform this application, the Prevention Specialist needs to have the following Knowledge

Awareness of the importance of attention to subpopulations when understanding risk and protective factors.

Anti Eng way dev

6. Incorporate Cultural Humility

Incorporate strategies for campus and community

To perform this application, the Prevention Specialist needs to have the following Knowledge

Understand the intersectionality between drug/alcohol issues, mental health and violence.

Knowledge of theories and frameworks for student development, health promotion and substance misuse prevention.

7. Monitor and Evaluate

Monitor planning, implementation and outcomes

To perform this application, the Prevention Specialist needs to have the following Knowledge

Understand the importance of maintaining ethical standards and protocols throughout the prevention work.

8. Incorporate Evidence-Based Approaches

Understand ways to overcome limitations based on campus and community

To perform this application, the Prevention Specialist needs to have the following Knowledge

Understand how scientific methods can be applied with planning, reviewing and implementing strategies.

Differentiate between evidence-based and evidence-informed approaches.

9. Incorporate Monitoring and Evaluation

Application

Implement specific initiatives that engage and reward faculty and academic unit participation.

To perform this application, the Prevention Specialist needs to have the following Knowledge

Appreciate the importance and nature of curricular and scholarly activities on campus.

Identify motivators for engagement by faculty members, academic units, and academic support systems.

10. Disseminate Findings

Application

Disseminate findings and insights in translational ways.

To perform this application, the Prevention Specialist needs to have the following Knowledge

Understand different needs and interests of varied campus leaders and stakeholders.

Develop strategies for sharing timely and appropriate information.

STRATEGIC PLANNING

Resources

8 Competencies

This emphasizes the campus prevention effort, including the campus and community context, vision setting, orchestrating a systematic process, and engaging key constituencies. This high-level oversight and leadership of the campus effort includes use of conceptual foundations, a logic model, program monitoring, and institutionalization. Essential are effective relationships with campus generalists, specialists and key departments and offices, including an understanding and respect for their respective skills, responsibilities, roles, and ethical standards. The planful, organized, interdependent and supportive approach helps promote the desired campus culture. Included are ways of contributing to overall institutional strategic planning efforts.

1. Oversee Continuum of Efforts

Application

Manage strategic planning efforts along the entire planning continuum.

To perform this application, the Prevention Specialist needs to have the following

| Knowledge | Skills |
|--|---|
| Knowledge of theoretical frameworks, evidence-informed strategies and strategic planning processes. | Synthesize elements gathered from campus vision-setting efforts related to substance misuse prevention and health-enhancing behavior promotion. |
| Knowledge of using vision- and goal-setting strategies for universal, selective and indicated audiences. | |
| Understand the institution's history, culture, values, community relationships, issues and aspirations. | |

5. Oversee Contextual Elements

Application

Oversee strategic planning efforts that are needs-based, current, and appropriate within the institutional context

To perform this application, the Prevention Specialist needs to have the following

| Knowledge | Skills |
|---|--|
| Knowledge of basic standards and ethical principles. | Embed formative and summative evaluation findings throughout the strategic planning process. |
| Knowledge of the variety of needs assessment processes. | |
| Knowledge of outcome and process evaluation, including standards, strengths, and limitations. | |

6. Integrate Monitoring

Application

Integrate monitoring of the environmental context, strategies, and outcomes.

To perform this application, the Prevention Specialist needs to have the following

| Knowledge | Skills |
|---|---|
| Maintain a systems perspective for a comprehensive campus effort. | Incorporate evidence-informed approaches that blend local needs, theoretical foundations, innovation, and best fit. |
| Understand individual and organizational challenges, obstacles, and resistance to change. | |

7. Prepare Documentation

Application

Prepare reports and documents that specify aims, strategies, review criteria, and results.

To perform this application, the Prevention Specialist needs to have the following

| Knowledge | Skills |
|---|---|
| Awareness of institutional and selective population needs and inclusion opportunities. | Maintain long-term perspectives to help sustain and institutionalize campus prevention efforts. |
| Awareness of skills, specialization, and opportunities for varied campus and community offices and personnel. | |

Audiences and Utilization

Why: Rationale for this Resource

- Increase the understanding and effectiveness of service delivery within the framework of a comprehensive campus effort
- Problems and concerns continue; these deaths, injuries, and lost human potential are largely preventable
- Acknowledge the importance of allocating personnel and other resources

This initiative was designed to bolster the foundations for those providing campus-based leadership and services, building on their dedication and commitment, and expanding and improving upon their knowledge and skills.

Campus Context

- It is vitally important to have comprehensive campus substance misuse prevention strategies.
- Research and evaluation efforts have provided substantial evidence in support of many campus initiatives.
- Numerous planning tools exist, including the Strategic Prevention Framework (SAMHSA), Prevention with Purpose (DEA), and the Planning Model (Anderson and Hall).
- Efforts to address campus substance issues appear to be declining, as found with staffing, policies, services, planning, and support.
- Campus prevention specialists have varied roles and responsibilities.

Audiences for Use

- Prevention Specialist
- Professional Colleagues
- Campus Leadership
- Academic Preparation Programs
- State Agencies and Offices
- National Agencies and Offices
- National Organizations

Audiences for Use

National Agencies and Offices

Just as with the state offices, various national agencies and departments may devote attention to this issue. Over many decades, various national offices have provided leadership. With NIAAA (from the *Whole College Catalog* to *CollegeAIM*), the U.S. Department of Education (with FIPSE grants, the Network, and the Higher Education Center), SAMSHA (with college publications and resources), the DEA (with resources), the U.S. Department of Transportation (with *A Winning Combination* and co-sponsorship of the *Policies and Programs* training), and the Office of National Drug Control Policy (with emphasis on higher education), various agencies have demonstrated leadership and resources. Noteworthy also is the Part 86 legislation, mandating a biennial review. Each of these agencies has an opportunity to review past work and identify ways they can be supportive individually or collaboratively to help with promoting this initiative. Just as at the state level, these national offices may use this competencies documentation and resources as the basis for their consideration of funding, resources, training, consultation, convening, support and calls to meaningful action.

National Organizations

Numerous professional associations have tremendous opportunities to provide support of and leadership for the enhancement of competencies associated with campus prevention services. Key associations in higher education, with long-term and current commitment on these issues, include ACPA, NASPA, and ACHA; these and others are included within CoHEASAP. Other higher education-based groups include the American Council on Education and the Higher Education Center. Beyond the higher education settings, associations such as CADCA, APHA, and the Society for Addiction provide opportunities for significant impact. These organizations may consider implementing or endorsing training and professional development for those seeking to advance their competencies in one or more of the core areas identified with the *Professional Competencies Guide*. This could be content based print or interpersonal approaches, such as webinar series, podcasts, and ongoing training. These organizations may consider credentialing or certification. With any resources or training offered, what would be helpful is to have some clear delineation of which of the competencies within the eight core areas are being addressed.

Page 16

Professional Colleagues

These include other individuals who have responsibility for specific aspects of the comprehensive campus initiative (e.g., evaluation, marketing, counseling, programming). It is appropriate for these individuals to have some understanding of the larger framework for the campus effort, and how their expertise can be helpful for achievement of the overall goals. Further, for their specific areas of expertise, these professionals should be aware of current science surrounding substance misuse, appropriate language, controversies and issues, and foundational elements. This could include a list of how an individual can use these competencies – how to train regarding the competencies, and how to assign specific roles and responsibilities based on them. Essential is the educational environment of colleges and universities, and the skills appropriate for direct education of students. This includes teaching and its skill set, including a lesson plan. For these partners in prevention, this could be framed as “if you’re not doing anything else, at least know or do this.”

Campus Leadership

Included in this area are campus leaders, with particular attention to those with direct supervisory and hiring responsibilities. These leaders benefit from understanding the elements of what type of attributes are necessary and appropriate for orchestrating a grounded, comprehensive campus prevention effort. While specific areas of emphasis will vary from campus to campus, the *Professional Competencies Guide* provides an overview of the broad range of specific competencies that should be considered when designing or refining campus prevention services. This specific competencies framework and its associated details and resources can be helpful for the preparation of the locally-appropriate position description, for determining evaluation protocols, and for identifying ways to demonstrate support for the campus prevention services. Beyond these individuals, others with campus leadership responsibilities, such as the campus president or chancellor, and other executive officers, would benefit from understanding the important characteristics of a prevention specialist professional.

Page 14

Audiences for Use

- Prevention Specialist
 - Identify areas for enhanced competency
 - Examine opportunities within prevention and other sources
- Professional Colleagues
 - Understand the larger framework of campus prevention and how their expertise can aid
 - Learn current science on substance misuse issues
- Campus Leadership
 - Gain overview of specific competencies for designing/refining campus prevention
 - Inform campus evaluation, supportive resources, campus professional characteristics
- Academic Preparation Programs
 - Invest in deeper understanding of drug/alcohol issues and ways of addressing them
 - Offer academic coursework fields of study, research inquiry, practical experience

Audiences for Use

- State Agencies and Offices
 - Adopt strategies and services promoting further professional development of campus prevention
 - Propose legislation, authority, or standards that encourage heightened competencies
- National Agencies and Offices
 - Review and revise past legislative and funding efforts
 - Consider resources, training, consultation, convention, support and calls to meaningful action
- National Organizations
 - Implement or endorse training and professional development in one or more of the eight core areas
 - Consider credentialing, certification, or other promotion of competency development
 - fields of study, research inquiry, practical experience

Questions to Ponder

- As you consider the breadth and depth of this resource, what are overall reactions about this ***Professional Competencies Guide***?
- How might the seven key audiences, as well as others, use this resource?
- In what ways might you use this resource?
- How can you engage others on your campus to use this resource?
- What challenges do you foresee with using this resource, and how might those be overcome?

Wrap-up

Engage with Strategic Planning

The screenshot shows the website for Campus Drug Prevention. At the top, there is a blue header with the text "Campus Drug Prevention" and the URL "www.campusdrugprevention.gov". To the right of the header are social media icons for YouTube, LinkedIn, Instagram, Facebook, and Twitter, along with the hashtag "#deacampus" and a "Sign up for Up" button. Below the header is a navigation menu with links for "DRUGS & PARAPHERNALIA", "RESEARCH", "PUBLICATIONS", "RESOURCES", "UPCOMING EVENTS", and "THE STUDENT CENTER". A vertical sidebar on the left contains icons for Facebook, Twitter, a printer, and a plus sign. The main content area features a row of black buttons with white text: "FEDERAL & NATIONAL", "STATE & LOCAL", "PRACTITIONER'S TOOLBOX", "RED RIBBON WEEK", "WEBINARS", "PODCASTS", and "VIEWS FROM THE FIELD". The "PRACTITIONER'S TOOLBOX" button is highlighted with a blue border. Below this row is a large heading "FEDERAL & NATIONAL RESOURCES" in blue. Underneath the heading is a paragraph: "This page lists a number of federal, non-federal and law enforcement resources connected with college students and substance abuse." At the bottom of the page, there is a section titled "FEDERAL RESOURCES" in blue.

Engage with Strategic Planning

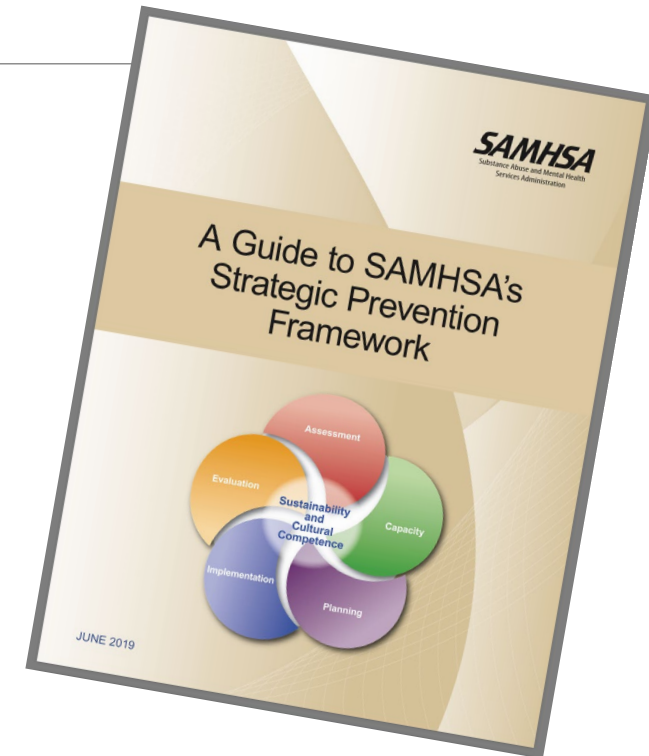

The screenshot shows the top navigation bar of the Practitioner's Toolbox website. The word "TOOLBOX" is displayed in large, glowing blue letters against a background of a stone wall with tools hanging on it. Below this, there are seven black navigation buttons with white text: "FEDERAL & NATIONAL", "STATE & LOCAL", "PRACTITIONER'S TOOLBOX", "RED RIBBON WEEK", "WEBINARS", "PODCASTS", and "VIEWS FROM THE FIELD". The "PRACTITIONER'S TOOLBOX" button is highlighted in white. Below the navigation bar, the page title "PRACTITIONER'S TOOLBOX" is shown in blue. A welcome message follows: "Welcome to the Practitioner's Toolbox! In this section you will find resources to help make your job as a drug misuse prevention professional on campus easier." Below this is the title of a resource: "THE GUIDE TO THE EIGHT PROFESSIONAL COMPETENCIES FOR HIGHER EDUCATION SUBSTANCE MISUSE PREVENTION". A paragraph of text describes the guide, mentioning it was developed to provide a broad understanding of skills for campus prevention efforts and was prepared by David S. Anderson, Ph.D., Professor Emeritus of Education and Human Development at George Mason University.
